

CHRISTIE HS SERIES DWU15-HS

Hospitality | Large venues | Live events | Meeting rooms and boardrooms
Museums | Places of worship | Rental and staging | Theme parks and attractions

Power is freedom.

Enjoy the freedom of unrestricted power. With 15,750 lumens, the Christie® DWU15-HS is the lightest and brightest 1DLP® laser projector to operate at full-brightness on a single 10A, 120V circuit. There's no need for high-power runs. Simply plug it into a standard 120V outlet and start the show!

Your audience will enjoy incredible brightness and WUXGA resolution, plus enhanced color performance—with deeper blacks, and more natural and realistic onscreen visuals—thanks to our new Christie BoldColor+™ technology. A long-lasting and reliable laser light source plus the affordability of 1DLP technology make this projector a cost-effective option for high-use applications.

The DWU15-HS supports active and passive polarized 3D right out of the box, and for extra peace of mind, it comes with a 5-year warranty.

With built-in Christie Twist™, you have the tools you need to quickly and easily set up and align irregular screens and multi-projector displays. And the option to add Christie Mystique™ automated camera-based alignment software lets you quickly stage, install, align, and recalibrate multi-projection systems in minutes.
